Sunquest VUE™

Improve decision-making, efficiency, and reporting in anatomic pathology labs

Increasing Pathologist Efficiency

Sunquest VUE is an integrated diagnostic platform providing a holistic view of each patient to advance comprehensive reporting, designed for diagnosticians and pathologists. It is included with either a Sunquest CoPathPlus™ or Sunquest PowerPath® upgrade.

ENABLE COMPREHENSIVE DIAGNOSES

- View diagnostic data from multiple systems in one cohesive layout
- Integrate data across concurrent/historical cases to allow for inclusion of prior patient data into current report

OPTIMIZE PATHOLOGIST CAPACITY

- Enable each user to organize information for the way they work with customizable analysis layout
- Increase utilization of electronic ordering of additional tests and panels with a simple drag-and-drop experience and order confirmation

REDUCE TURN-AROUND TIME

- Use comprehensive voice command and dictation integration to enable pathologists' existing shortcuts and workflows
- Quickly identify case and order status to accelerate completion of cases awaiting add-on tests

MINIMIZE OPPORTUNITIES FOR MISDIAGNOSIS

- See multi-disciplinary information from multiple systems in one application, linked by same patient identifier
- Eliminate manual lookups and case data re-entry across systems and benefit from the use of FHIR standards to ensure data flow between systems

Sunquest VUE

Sunquest VUE provides a highly integrated analysis and reporting workflow for pathologists and other clinicians aimed at streamlining diagnosis and saving time and effort per case. An innovative and elegant solution, Sunquest VUE delivers a personalized user interface that aggregates relevant diagnostic information from multiple data sources. The result is a comprehensive view for diagnosticians.

MAKE IT PERSONAL

CONSOLIDATE DATA

SPEED CASE TURNAROUND

STREAMLINE ORDERING

ENHANCE REPORTING

ADVANCE ENTERPRISE INTEROPERABILITY

Integrating Pathology with Sunquest VUE

Sunquest VUE presents relevant diagnostic information from multiple data sources to simplify data correlation, analysis and interpretation. This innovative and elegant solution allows pathologists to create a comprehensive, integrated report for distribution to physicians and the patient.

About Sunquest

We at CliniSys are dedicated to enabling better global health outcomes through innovation in diagnostics and laboratory informatics technology.
